

# TSEP

Technical Software Engineering Plazotta GmbH

Innovation made measurable.

## Software Tester (m/f/d)

We are a unique team of software developers, system engineers, IT specialists, marketing & sales experts who all share a common goal: We want to develop the future!

### Your Profile:

For you, developing and programming is more than a job and you have projects you are proud of?

Thanks to your knowledge, your experience with software testing, can you turn concepts and ideas into a first-class experience?

Is written and spoken English no problem for you and do you have a class B driver's license?

### Your Tasks:

You test our exceptional and innovative software.

You create test plans and implement them.

You work on the continuous improvement of our test processes and take them further.

You work on internal and external test projects and drive these projects forward.

You actively contribute to your team and contribute to the success of our products through your commitment.

### Our Offer:

- ▶ Working in a family-run company, with nice, motivated and communicative colleagues
- ▶ An attractive, modern and bright workplace in Wolnzach, in the middle of the Hallertau
- ▶ Free drinks (sparkling water, coffee) and fresh organic fruit
- ▶ Flexible working time models: whether it's a 4-day week, 35-hour week, part-time or mobile work, we're open to everything
- ▶ We support you with the integration into our team, no matter whether you are moving, looking for an apartment, residence permit/visa or other administrative procedure

Apply to us and become part of the TSEP family!
